BUDGET CERTIFICATION

THE BUNBURY-HARVEY REGIONAL COUNCIL COMPILED THE ANNUAL BUDGET ACCORDING TO SECTION 6.2 OF THE LOCAL GOVERNMENT ACT 1995

I hereby certify that the budget for the -

Municipal Fund and the following Reserve Accounts:

- Plant and Infrastructure Reserve
- Site (Post Closure) Rehabilitation Reserve
- Waste Minimisation and Environmental Protection Reserve

for the Bunbury-Harvey Regional Council for the 2013/2014 financial year were adopted by the Council at the Ordinary Meeting held 25th July 2013.

J M Jones

CHAIRMAN

T Battersby CHIEF EXECUTIVE OFFICER

WASTE DISPOSAL AUTHORITY

Established 1st January 1990

SCHEDULE OF CONSTITUENT COUNCILS:

CITY OF BUNBURY

SHIRE OF HARVEY

BUNBURY - HARVEY REGIONAL COUNCIL

ELECTED MEMBERS AND EXECUTIVE STAFF

CHAIRMAN: LOCAL AUTHORITY

Cr Judy Jones City of Bunbury

COUNCIL MEMBERS:

Cr G Campbell Shire of Harvey
Cr P Monagle Shire of Harvey

Cr C Bridges City of Bunbury Retired July 2012

Cr N McNeill City of Bunbury

Cr M Cook City of Bunbury Appointed July 2012

REPRESENTATIVES:

Mr Michael Parker Chief Executive Officer - Shire of Harvey

CHIEF EXECUTIVE OFFICER:

Mr Tony Battersby

ACCOUNTANT:

Mr Chris Welham City of Bunbury

AUDITORS:

Grant Thornton

PRINCIPAL PLACE OF BUSINESS:

Waste Disposal Site: Lot 45 Stanley Road, Australind WA 6233.

Administration: 21 McCombe Road, Davenport WA 6230

Postal address: Bunbury Harvey Regional Council, P. O. Box 21, Bunbury, WA 6231.

1 SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies that have been adopted in the preparation of this budget are:

a) THE LOCAL GOVERNMENT REPORTING ENTITY

All funds through which the Council controls resources to carry on its functions have been included in the financial statements forming part of this budget. For the purpose of reporting the Regional Council as a single unit, all transactions and balances between those funds have been eliminated.

b) BASIS OF PREPARATION

The budget has been prepared in accordance with applicable Australian Accounting Standards (as they apply to local government and not-for-profit entities), Australian Accounting Interpretations, other authoritative pronouncements of the Australian Accounting Standards Board, the Local Government Act 1995 and accompanying regulations. Except of the Cash Flow Statement and the Fee Setting Statement, the budget has also been prepared on an accrual basis under the convention of historical cost accounting.

c) 2012/2013 FORECAST BALANCES

Balances shown as 2012/2013 forecast are as estimated at the time of budget preparation and are subject to final adjustments.

d) ROUNDING OFF FIGURES

All figures shown in this budget, are rounded to the nearest dollar.

e) FIXED ASSETS

Each class of fixed assets is carried at cost or fair value as indicated less, where applicable, any accumulated depreciation and impairment losses.

Mandatory Requirement to Revalue Non-Current Assets

Effective from 1 July 2012, the Local Government (Financial Management) Regulations were amended and the measurement of non-current assets at Fair Value became mandatory. The amendments allow for a phasing in of fair value in relation to fixed assets over three years as follows: (a) for the financial year ending on 30 June 2013, the fair value of all of the assets of the local government that are plant and equipment; and (b) for the financial year ending on 30 June 2014, the fair value of all of the assets of the local government – (i) that are plant and equipment; and (ii) that are – (I) land and buildings; or (II) infrastructure; and (c) for a financial year ending on or after 30 June 2015, the fair value of all of the assets of the local government. Council has commenced the process of adopting Fair Value in accordance with the Regulations.

1 SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies that have been adopted in the preparation of this budget are:

e) FIXED ASSETS (Continued)

Initial Recognition

All assets are initially recognised at cost. Cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition. For assets acquired at no cost or for nominal consideration, cost is determined as fair value at the date of acquisition. The cost of non-current assets constructed by the Council includes the cost of all materials used in construction, direct labour on the project and an appropriate proportion of variable and fixed overheads.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Council and the cost of the item can be measured reliably. All other repairs and maintenance are recognised as expenses in the statement of comprehensive income in the period in which they are incurred.

Revaluation

When performing a revaluation, the Council uses a mix of both independent and management valuations using the following as a quide: Revalued assets are carried at their fair value being the price that would be received to sell the asset, in an orderly transaction between market participants at the measurement date (Level 1 inputs in the fair value hierarchy). For land and buildings, fair value will be determined based on the nature of the asset class. For land and non-specialised buildings, fair value is determined on the basis of observable open market values of similar assets, adjusted for conditions and comparability at their highest and best use (Level 2 inputs in the fair value hierarchy). With regards to specialised buildings, fair value is determined having regard for current replacement cost and both observable and unobservable costs. There include construction costs based on recent contract prices, current condition (observable Level 2 inputs in the fair value hierarchy), residual values and remaining useful life assessments (unobservable Level 3 inputs in the fair value hierarchy). For infrastructure and other asset classes, fair value is determined to be the current replacement cost of an asset (Level 2 inputs in the fair value hierarchy) less, where applicable, accumulated depreciation calculated on the basis of such cost to reflect the already consumed or expired future economic benefits of the asset (Level 3 inputs in the fair value hierarchy).

Increases in the carrying amount arising on revaluation of assets are credited to a revaluation surplus in equity. Decreases that offset previous increases of the same asset are recognised against revaluation surplus directly in equity. All other decreases are recognised in profit or loss.

Any accumulated depreciation at the date of revaluation is eliminated against the gross carrying amount of the asset and the net amount is restated to the revalued amount of the asset.

Those assets carried at a revalued amount, being their fair value at the date of revaluation less any subsequent accumulated depreciation and accumulated impairment losses, are to be revalued with sufficient regularity to ensure the carrying amount does not differ materially from that determined using fair value at reporting date.

In addition, the amendments to the Financial Management Regulations mandating the use of Fair Value imposes a further minimum 3 year revaluation requirement. As a minimum, all assets carried at a revalued amount, will be revalued at least every 3 years.

1 SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies that have been adopted in the preparation of this budget are:

e) FIXED ASSETS (Continued)

Transitional Arrangements

During the time it takes to transition the carrying value of non-current assets from the cost approach to the fair value approach, the Council may still be utilising both methods across differing asset classes. Those assets carried at cost will be carried in accordance with the policy detailed in the Initial Recognition section as detailed above. Those assets carried at fair value will be carried in accordance with the Revaluation Methodology section as detailed above.

Early Adoption of AASB 13 - Fair Value Measurement

Whilst the new accounting standard in relation to Fair Value, AASB 13 – Fair Value Measurement did not become applicable until the year ended 30 June 2014 (in relation to this Council), given the legislative need to commence using Fair Value methodology for this reporting period, the Council chose to early adopt AASB 13 (as allowed for in the standard). As a consequence, the principles embodied in AASB 13 – Fair Value Measurement were applied to the previous reporting period being the year ended 30 June 2013 (2012/13 Actual in this budget document).

f) DEPRECIATION OF NON CURRENT ASSETS

Non Current Assets (excluding Infrastructure Assets)

All non-current assets having a limited useful life are systematically depreciated over their useful lives in a manner which reflects the consumption of the future economic benefits embodied in those assets. Assets are depreciated from the date of acquisition or, in respect of internally constructed assets, from the time the asset is completed and held ready for use.

Depreciation is recognised on a straight-line basis, using rates which are reviewed each reporting period. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater then its estimated recoverable amount. Gains and loses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are included in the statement of comprehensive income. When revalued assets are sold, amounts included in the revaluation surplus relating to that asset are Major depreciation periods applied are:

 Buildings
 5-10%

 Machinery
 20%

 Plant & Equipment
 5-20%

 Furniture and Equipment
 12.5-25%

 Motor Vehicles
 20%

Infrastructure Assets

Infrastructure assets are those amenities, structures or facilities that assist in the local long life; substantial capital cost; does not necessarily have a realisable value.

Major depreciation periods applied are:

Infrastructure-Roads 2.22% Infrastructure-Perimeter Fencing 7%

1 SIGNIFICANT ACCOUNTING POLICIES

g) GRANTS, DONATIONS AND OTHER CONTRIBUTIONS

All grants, donations and other contributions have been recognised as revenues during the reporting period and expenditure of those monies has been made in the manner specified under the conditions upon which the Regional Council received those monies.

h) TRADE AND OTHER RECEIVABLES

All fees and charges are recognised as revenue. Collectability of trade receivables is reviewed on an ongoing basis. Debts that are known to be uncollectible are written off when identified. An allowance for doubtful debts is raised when there is objective evidence that they will not be collectible. No provision has been made in this budget for doubtful debts.

i) EMPLOYEE BENEFITS

Provision is made for the Council's liability for employee benefits arising from services rendered by employees to the end of the reporting period. Employee benefits that are expected to be settled within one year have been measured at the amounts expected to be paid when the liability is settled.

Employee benefits payable later than one year have been measured at the present value of the estimated future cash outflows to be made for those benefits. In determining the liability, consideration is given to employee wage increases and the probability that the employee may not satisfy vesting requirements. Those cash flows are discounted using market yields on national government bonds with terms to maturity that match the expected timing of cash flows.

j) SUPERANNUATION

All funds to which the Council contributes are defined contribution plans.

k) GOODS AND SERVICES TAX

net of any GST recoverable. Receivables and payables in the Balance Sheet are stated inclusive

I) CASH AND CASH EQUIVALENTS

Cash and cash equivalents comprise cash at bank and in hand and short term deposits that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value.

For the purposes of the of Cash Flow Statement, cash and cash equivalents consist of cash and cash equivalents as defined above, net of outstanding bank overdrafts. Bank overdrafts are included as short term borrowings in current liabilities.

1 SIGNIFICANT ACCOUNTING POLICIES

m) FINANCIAL INSTRUMENTS

Initial Recognition and Measurement

Financial assets and financial liabilities are recognised when the Council becomes a party to the contractual provisions to the instrument. For financial assets, this is equivalent to the date that the Council commits itself to either the purchase or sale of the asset (i.e. trade date accounting is adopted).

Financial instruments are initially measured at fair value plus transaction costs, except where the instrument is classified 'at fair value through profit or loss', in which case transaction costs are expensed to profit or loss immediately.

Classification and Subsequent Measurement

Financial instruments are subsequently measured at fair value, amortised cost using the effective interest rate method or at cost.

Fair value represents the amount for which an asset could be exchanged or a liability settled, between knowledgeable, willing parties. Where available, quoted prices in an active market are used to determine fair value. In other circumstances, valuation techniques are adopted.

Amortised cost is calculated as:

- (a) the amount in which the financial asset or financial liability is measured at initial recognition;
- (b) less principal repayments;
- (c) plus or minus the cumulative amortisation of the difference, if any, between the amount initially recognised and the maturity amount calculated using the effective interest rate method; and
- (b) less any reduction for impairment.

The effective interest rate method is used to allocate interest income or interest expense over the relevant period and is equivalent to the rate that exactly discounts estimated future cash payments or receipts (including fees, transaction costs and other premiums or discounts) through the expected life (or when this cannot be reliably predicted, the contractual term) of the financial instrument to the net carrying amount of the financial asset or financial liability. Revisions to expected future net cash flows will necessitate an adjustment to the carrying value with a consequential recognition of an income or expense in profit or loss.

1 SIGNIFICANT ACCOUNTING POLICIES

m) FINANCIAL INSTRUMENTS (CONTINUED) Classification and Subsequent Measurement (Continued)

(i) Financial assets at fair value through profit and loss

Financial assets at fair value through profit or loss are financial assets held for trading. A financial asset is classified in this category if acquired principally for the purpose of selling in the short term. Derivatives are classified as held for trading unless they are designated as hedges. Assets in this category are classified as current assets.

(ii) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and are subsequently measured at amortised cost.

Loans and receivables are included in current assets, except for those which are not expected to mature within12 months after the end of the reporting period (classified as non-current assets).

(iii) Held-to-maturity investments

Held-to-maturity investments are non-derivative financial assets with fixed maturities and fixed or determinable payments that the Council's management has the positive intention and ability to hold to maturity.

Held-to-maturity financial assets are included in non-current assets, except for those which are expected to mature within 12 months after the end of the reporting period, which are classified as current assets.

If the Council were to sell other than an insignificant amount of held-to-maturity financial assets, the whole category would be tainted and reclassified as available-for-sale.

(iv) Available-for-sale financial assets

Available-for-sale financial assets are non-derivative financial assets that are either not suitable to be classified into other categories of financial assets due to their nature, or they are designated as such by management. They comprise investments in the equity of other entities where there is neither a fixed maturity nor fixed or determinable payments.

Available-for-sale financial assets are included in non-current assets, except for those which are expected to mature within 12 months of the end of the reporting period (classified as current assets).

(v) Financial liabilities

Non-derivative financial liabilities (excluding financial guarantees) are subsequently measured at amortised cost.

Impairment

At the end of each reporting period, the Council assesses whether there is objective evidence that a financial instrument has been impaired. In the case of available-for-sale financial instruments, a prolonged decline in the value of the instrument is considered to determine whether impairment has arisen. Impairment losses are recognised in the statement of comprehensive income.

1 SIGNIFICANT ACCOUNTING POLICIES

n) MATERIALITY

The Bunbury-Harvey Regional Council has adopted a \$750 threshold for the recognition of assets within the accounts. Any expenditure below this threshold is treated as an operating expenditure.

o) COMPARATIVE INFORMATION

Comparative information has been included in the Income Statement, Fee Setting Statement, Cash Flow Statement and Balance Sheet in the format required for the current budget. This comparative information is based on the original budget, revised budget and the projected actual of the previous financial year. Where required, comparative figures have been adjusted to conform with changes in presentation for the current budget year.

p) TRADE AND OTHER PAYABLES

Trade and other payables represent liabilities for goods and services provided to the Council prior to the end of the financial year that are unpaid and arise when the Council becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are secured and are usually paid within 30 days of recognition.

a) IMPAIRMENT

In accordance with Australian Accounting Standards the Council's assets, other than inventories, are assessed at each reporting date to determine whether there is any indication they may be impaired.

Where such an indication exists, an estimate of the recoverable amount of the asset is made in accordance with AASB 136 "Impairment of Assets" and appropriate adjustments made.

An impairment loss is recognised whenever the carrying amount of an asset or it's cashgenerating unit exceeds its' recoverable amount. Impairment losses are recognised in the income statement.

For non-cash generating assets, value in use is represented by the depreciated replacement cost of the asset.

In any event, an impairment loss is a non-cash transaction and consequently, has no impact on this budget document.

r) LATE PAYMENT INTEREST CHARGE

A charge on unpaid fees and charges of 11% interest, calculated on a simple interest basis for the number of days outstanding, may apply on unpaid outstanding 35 days from the date of invoices raised after 1 July 2013.

1 SIGNIFICANT ACCOUNTING POLICIES

s) CURRENT AND NON-CURRENT CLASSIFICATION

In the determination of whether an asset or liability is current or non-current, consideration is given to the time when each asset or liability is expected to be settled. The asset or liability is classified as current if it is expected to be settled within the next 12 months, being the Council's operational cycle. In the case of liabilities where Council does not have the unconditional right to defer settlement beyond 12 months, such as vested long service leave, the liability is classified as current even if not expected to be realised in the next 12 months.

t) PROVISIONS

Provisions are recognised when:

- a) the Council has a present legal or constructive obligation as a result of past events;
- b) for which it is probable that an outflow of economic benefits will result to settle the obligation; and
- c) that outflow can be reliably measured.

Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

Provisions are not recognised for future operating losses.

2 REPORTING - PROGRAM DESCRIPTIONS

Description of Programs

GOVERNANCE

Objective:

To provide a decision making process for the efficient allocation of scarce resources.

Activities:

Includes the activities of members of the council and the administrative support available to the council for the provision of governance of the regional council. Other costs relate to the task of assisting elected members.

GENERAL PURPOSE FUNDING

Objective:

To collect revenue to allow for the provision of services.

Activities:

Fees, general purpose government grants and interest revenue.

COMMUNITY AMENITIES

Objective:

To provide services required by the member councils.

Activities:

Operation of landfill facilities.
