Failure to attend this Briefing will render the Respondent ineligible to submit a Request for Tender.

1.7 Evaluation Process

This is a Request for Tender (RFT).

Your Tender will be evaluated using information provided in your Tender.

The following evaluation methodology will be used in respect of this Request:

- a. Tenders are checked for completeness and compliance. Tenders that do not contain all information requested (e.g. completed Offer form and Attachments) may be excluded from the evaluation.
- b. Tenders are assessed against the Selection Criteria. Contract costs are evaluated, e.g. tendered prices and other relevant whole of life costs are considered.
- c. The most suitable Tenderers may be short listed and may also be required to clarify their Tender, make a presentation, demonstrate the product/solution offered and/or open premises for inspection. Referees may also be contacted prior to the selection of the successful Tenderer.

A contract may then be awarded to the Tenderer whose Tender is considered the most advantageous Tender to the Principal.

1.8 Selection Criteria

The Contract may be awarded to a sole Tenderer who best demonstrates the ability to provide quality products and/or services at a competitive price. The tendered prices will be assessed together with qualitative and compliance criteria to determine the most advantageous outcome to the Principal.

The Principal has adopted a best value for money approach to this Request. This means that, although price is considered, the Tender containing the lowest price will not necessarily be accepted, not will the Tender ranked the highest on the qualitative criteria.

A scoring system will be used as part of the assessment of the qualitative criteria. Unless otherwise stated, a Tender that provides all the information requested will be assessed as satisfactory. The extent to which a Tender demonstrates greater satisfaction of each of these criteria will result in a greater score. The aggregate score of each Tender will be used as one of the factors in the final assessment of the qualitative criteria and in the overall assessment of value for money.

1.9 Compliance Criteria

These criteria are detailed within Part 4 of this document and **will not** be point scored. Each Tender will be assessed on a Yes/No basis as to whether the criterion is satisfactorily met. An assessment of "No" against any criterion may eliminate the Tender from consideration.

1.10 Qualitative Criteria

In determining the most advantageous Response, the Evaluation Panel will score each Response against the qualitative criteria as detailed within Part 4 of this document. Each criterion will be weighted to indicate the relative degree of importance that the Principal places on the technical aspects of the goods or services being purchased.

It is essential that Respondents address each qualitative criterion. Information that you provide addressing each qualitative criterion will be point scored by the Evaluation Panel. Failure to provide the specified information may result in elimination from the evaluation process or a low score.

1.11 Price Considerations

Weighted Cost Criteria

The weighted cost method is used where functional considerations such as capacity, quality, transitional and adaptability are seen to be crucial to the outcome of the contract. The evaluation panel will make a series of value judgements based on the capability of the Tenderers to complete the Requirements and a number of factors will be considered including:

- a. the qualitative ranking of each Tenderer; and
- b. the pricing submitted by each Tenderer.

Once the tenders have been ranked, the evaluation panel will make a value judgement as to the cost affordability, qualitative ranking and risk of each Tender, in order to determine the Tender which is most advantageous to the Principal.

The tendered price will be considered along with related factors affecting the total cost to the Principal e.g. the lifetime operating costs of goods or the Principal's contract management costs may also be considered in assessing the best value for money outcome.

1.12 Price Basis

The Contractor shall be paid on a lump sum basis as per the General Conditions of Contract.

All prices for goods/services offered under this Request are to be fixed for the term of the Contract. Tendered prices must include Goods and Services Tax (GST).

Unless otherwise indicated prices tendered must include delivery, unloading, packing, marking and all applicable levies, duties, taxes and charges. Any charges not stated in the Tender, as being additional will not be allowed as a charge for any transaction under any resultant Contract.

Schedule of Prices

- Tenderers are required to submit a complete Schedule of Prices and a breakdown of their tender sum with their tender submission.
- Rates must be inserted for all items on the Schedule of Prices. The rates for items in the Schedule of Prices shall include the cost of all materials, labour, equipment, overheads and profits.
- Any quantities given in the Schedule of Prices are for the guidance of Tenderers only. Tenderers shall make their own enquiries to verify all quantities in their preparation of their tender submission.
- The Tenderer shall sum the individual items to a Grand Total which shall form the basis of the Lump Sum tender. Should any computational discrepancies become apparent, the Tenderer shall, if requested by the Superintendent, alter the Schedule of Prices accordingly in order to conform with the Lump Sum Tender.
- Upon a tender being successful, the Schedule of Prices submitted as part of the original tender documents, shall form part of the Contract Documents and it shall be used by the Superintendent only to the extent that it enables assessment of progress claims for payment and calculation of variations to the Contract.
- In the event of any variations ordered in writing by the Superintendent, or his representative, under this Contract, payment will be made at the rate tendered in the Schedule of Prices.

1.13 Lodgement of Tenders and Delivery Method
