Background

A financial management report is provided to Councillors on a monthly basis which includes the following summaries:

- Statement of Comprehensive Income (attached at Appendix 1)

- Statement of Financial Position (attached at Appendix 5)
- Statement of Net Current Assets (attached at Appendix 6)
- Fees and Charges Summary (attached at Appendix 7)

Legislative Compliance

In accordance with the provisions of Section 6.4 of the Local Government Act 1995 and Regulations 34(1) of the Local Government (Financial Management) Regulations 1996, a Local Government is to prepare each month a Statement of Financial Activity (Attached at Appendix 3) reporting on the revenue and expenditure as set out in the annual budget under Regulations 22 (1) (d) for this month.

At the Council Meeting on 27 July 2017, Council adopted that a variance between actual and budget-to-date of greater than or equal to 10% and \$15,000 is considered to be a material variance for reporting purposes in the Statement of Financial Activity for 2017/18.

The following is an explanation of significant variances identified in the Statement of Comprehensive Income and the Statement of Financial Activity:

Statement of Comprehensive Income	YTD Actual to YTD Budget Variance
Operating Income	
Fees and Charges	
Casual Tipping Fees Unfavourable year-to-date budget variance due to: (a) seasonal effect of winter weather (b) deferment of sourcing of waste from the Perth metropolitan area pending DER approvals for site rehabilitation and new lined cells at Stanley Road.	(\$487,105) (42%)
Disposal – City of Bunbury Unfavourable compared to budget City of Bunbury disposals are expected to reduce in line with year-to date actuals. Annual tonnage is projected to reduce by 950 tonnes compared the previous financial year.	(\$25,412) (10%)
Cardboard/Plastic Recycling The purchase of the new shredder has increased capacity and the amount of cardboard available for sale.	\$18,769 469%
Banksia Road Organics Tipping fees Roadside collections are unfavourable compared to budget. his amount is partly offset by savings in Organics Expenditure as detailed below	(\$25,654) (14%)

Interest Earnings	
Interest Earnings Unfavourable year-to-date budget variance due to the non-payment of the doubtful debt relating to Aurigen Group. This reduced municipal funds available to earn interest and extra funds belonging to P & I Reserve were held in on call funds for cash flow requirements at a lower rate of interest for approximately 3 months.	(\$17,076) (18%)
Other Revenue	
Insurance Reimbursements Favourable year-to-date budget variance due to reimbursement of ongoing workers compensation payments. A forecast adjustment has been made and will be included in the February Budget Review.	\$33,581 1,342%
Landfill Levy Income Unfavourable year-to-date budget variance due to: (a) seasonal effect of winter weather (b) deferment of sourcing of waste from the Perth metropolitan area pending DER approvals for site rehabilitation and new lined cells at Stanley Road.	(\$301,644) (67%)
Operating Expenditure	
Employee Costs	
Earthworks Operations employee costs are unfavourable compared to budget. However due to savings in administration and waste education salaries the total overall employee costs are within budget tolerances (6%).	(\$15,170) (10%)
Materials and Contracts	
Organics Expenditure There have been savings compared to budget in proportion to the reduction in tipping volumes (see comment on Organics tipping fees under Fees and Charges above).	\$17,011 18%
Earthworks Operations Favourable year-to-date budget variance due to savings in repairs and maintenance of plant.	\$29,810 26%
Site Rehabilitation Favourable year-to-date budget variance due to deferment of works in anticipation of DER approvals for the Gabion Wall and associated works.	\$791,658 84%
Depreciation	
Vehicles, Plant and Equipment Savings have been realised compared to budget due to later than expected purchase of large items of plant and vehicles	\$97,126 32%
Other Expenditure	
Landfill Levy Favourable year-to-date budget variance mainly due to: (a) seasonal effect of winter weather (b) deferment of sourcing of waste from the Perth metropolitan area pending DER approvals for site rehabilitation and new lined cells at Stanley Road.	\$277,512 67%

RESOLUTION: OC220218-1529

Background

A Statement of Financial Activity incorporating year to date budget variations and forecasts to 30 June 2018 for the period ending 31 January 2018 is presented for Council to consider. The *Local Government (Financial Management) Regulations 1996*, regulation 33A as amended, requires that local governments conduct a budget review between 1 January and 31 March in each financial year. A copy of the review and determination is to be provided to the Department of Local Government within 30 days of the adoption of the review.

Details

The budget review has been prepared to include information required by the *Local Government Act 1995*, *Local Government (Financial Management) Regulations 1996* and Australian Accounting Standards. The review will increase the Operating Deficit from \$620,363 to \$1,389,134, an increase of \$768,772. This is mainly due to a decrease in Casual Tipping Fees of \$954K and savings in both Site Rehabilitation Costs (\$158K) and Depreciation Expenses (\$160K).

This increase in the deficit has been offset by a reduction in Transfers to Reserve of \$870K and capital expenditure decreasing by \$3,033,138, mainly due to the withdrawal of State Grant monies budgeted to be used for Stanley Road Infrastructure (\$3M).

As a result of the above changes the budgeted closing funds as at 30 June 2018 will decrease from a surplus of \$195,565 to a surplus of \$128,722, a decrease of \$66,843.

The following supporting documents are attached for the period ending 31 January 2018:

- Statement of Comprehensive Income (**attached** at Appendix 1)
- Banksia Road Operations (**attached** at Appendix 2)
