VISION

To develop, implement and maintain innovative and sustainable waste reduction, recycling and landfilling services while managing waste facilities with best practice standards for the councils of the Wellington Region and beyond.

To provide sustainable waste minimisation, recycling and alternative waste treatment services to an informed community while reducing the environmental impact of waste and maximising the conservation of natural resources through reduced material use and increased resource recovery

MISSION

To ensure the delivery of an integrated, cost-effective and environmentally sound waste management system and to promote sustainable community programs and policies ensuring that the health, diversity and productivity of the environment is maintained or enhanced for the benefit of future generations.

Reduce the environmental impact of waste and maximise conservation of natural resources through reduced overall material use and increased materials and energy recovery.

VALUES

Excellence:

To provide best practice facilities and waste services to our community through the development of quality controls and continuous improvements.

Leadership:

Having a clear vision and direction, that engages with key stakeholders and our community.

Integrity:

Acting with a level of trust, respect, honesty, hard work, communication and shared responsibility that is exhibited by its people.

Accountability:

To ensure the collection and management of solid waste and recovered materials in an environmentally sound manner and in accordance with regulatory requirements and the Department of Water and Environmental Regulation licence conditions.

Innovation:

Embrace new and better ways to achieve improved results through creativity, inventiveness and teamwork.

Respect

We value diversity and respect and are committed to work towards integrating the principles of Equal Employment Opportunity and ensure that the work environment is free from harassment and discrimination. We value and respect all members of our community.

RESOLUTION: OC280219-1586

Background

A financial management report is provided to Councillors on a monthly basis which includes the following summaries:

- Statement of Comprehensive Income (attached at **Appendix 1**)
- Banksia Road Operations (attached at **Appendix 2**)
- Statement of Financial Activity (attached at **Appendix 3**)
- Capital Works Expenditure Summary (attached at **Appendix 4**)
- Statement of Financial Position (attached at **Appendix 5**)
- Statement of Net Current Assets (attached at **Appendix 6**)
- Fees and Charges Summary (attached at **Appendix 7**)
- Debtors Report (attached at **Appendix 8**)

Legislative Compliance

In accordance with the provisions of Section 6.4 of the Local Government Act 1995 and Regulations 34(1) of the Local Government (Financial Management) Regulations 1996, a Local Government is to prepare each month a Statement of Financial Activity (Attached at Appendix 3) reporting on the revenue and expenditure as set out in the annual budget under Regulations 22 (1) (d) for this month.

At the Council Meeting on 26 July 2018, Council adopted that a variance between actual and budget-to-date of greater than or equal to 10% and \$15,000 is considered to be a material variance for reporting purposes in the Statement of Financial Activity for 2018/19.

Voting Requirement

Absolute Majority

The following is an explanation of significant variances identified in the Statement of Comprehensive Income and the Statement of Financial Activity:

Statement of Comprehensive Income	YTD Actual to YTD Budget Variance
Fees and Charges	
Casual Tipping Fees Unfavourable variance compared to year-to-date budget which is due to the seasonal effect of winter weather and a reduction in waste received from outside the Bunbury-Harvey Region. The CEO has arranged meetings with the City of Busselton following a trial during July and August (\$31K tipping fees billed) and with the Southern Metropolitan Regional Council (SMRC) in order to achieve budget targets. The City of Busselton has decided to utilise their lined cell in Dunsborough and SMRC advised that they will be inviting tenders for waste disposal in December. The Shire of Capel will also be inviting tenders within the next two months. Westbins is expected to bring in some waste from Perth over the next few months and two new customers have commenced to bring in waste from the Mandurah area. This will be addressed in the February Budget Review.	(\$387,065) (38%)
Sale of Scrap Metal: Favourable variance compared to year-to-date budget which is	\$66,140

due to an improvement in the market price per tonne. The forecast has been increased by \$100K and this will be addressed in the February Budget Review.	120%
Waste Minimisation Income: Unfavourable variance compared to year-to-date budget which is mainly due to the reduction in co-mingled waste included in casual tipping fees. Please refer to the note above for Casual Tipping Fees. This will be addressed in the February Budget Review.	(\$17,877) (31%)
Other Revenue	
Insurance Reimbursements: Favourable year-to-date variance mainly due to workers compensation reimbursements from the Municipal Workcare Scheme. This will be addressed in the February Budget Review.	\$19,125 100%
Landfill Levy Income: Unfavourable variance compared to year-to-date budget which is mainly due to the lower than anticipated casual tipping fees received. Please refer to the note above. This will be addressed in the February Budget Review.	(\$136,903) (76%)
Employee Costs	
Administration: Favourable year-to-date variance due to this is offset by an unfavourable variance in accounting/professional fees associated with an employment agency for coverage. This will be addressed in the February Budget Review.	\$28,506 15%
Waste Transfer Station: Favourable year-to-date variance to budget due to staff being on annual leave and close monitoring of staff rosters.	\$27,778 15%
Earthworks Operations: Unfavourable year-to-date variance to budget due to an increase in the annual leave provision compared to annual leave taken.	(\$16,934) (19%)
Materials and Contracts	
Accounting/Professional Fees (COB/Other): Unfavourable variance compared to year-to-date budget is mainly due to fees paid to an employment agency for Office Administration. This is offset by a favourable variance in Administration employee costs. This will be addressed in the February Budget Review.	(\$62,501) (107%)
Technical Services: Unfavourable variance compared to year-to-date budget which is due to extra Consulting fees required to answer DWER (Department of Water and Environment Regulation) requests relating to the Lined Cell and Organics Planning applications and the Environmental Audit. This will be addressed in the February Budget Review.	(\$17,654) (29%)
Skip Bin Recycling Operations: Favourable variance compared to year-to-date budget because the tender for the new waste handler was awarded later than expected. This will be addressed in the February Budget Review.	\$21,785 46%
Site Rehabilitation: Favourable variance compared to year-to-date budget has been achieved by reduced contractor costs in landfill gas capture and in utilising in-house operations where ever possible. This will be addressed in the February Budget Review.	\$88,416 15%
Other Expenditure	
Landfill Levy: Favourable variance compared to year-to-date budget due to lower than anticipated casual tipping fees. Please refer to the note above for Casual Tipping Fees. This will be addressed in the February Budget Review.	\$118,357 71%
Statement of Financial Activity	
Revenues by Nature and Type	
Fees and Charges: Unfavourable variance. See explanation above included in the Statement of Comprehensive Income variances.	(\$311,039) (15%)
Other Revenue: Unfavourable variance. See explanation above included in the Statement of Comprehensive Income variances.	(\$96,330) (45%)
Expenses by Nature and Type	
Other Expenditure: Favourable variance. See explanation above included in the Statement of Comprehensive Income variances.	\$109,491 39%

Summary

To consider and adopt the Budget Review as presented in the Statement of Financial Activity for the period 1 July 2018 to 31 January 2019.

Background

A Statement of Financial Activity for the period ending 31 January 2019 incorporating year to date budget variations and forecasts to 30 June 2019 is presented for Council consideration. The *Local Government (Financial Management) Regulations 1996*, regulation 33A as amended, requires that local governments conduct a budget review between 1 January and 31 March in each financial year. A copy of the review and determination is to be provided to the Department of Local Government, Sport and Cultural Industries within 30 days of the adoption of the review.

The budget review has been prepared to include information required by the *Local Government Act 1995*, *Local Government (Financial Management) Regulations 1996* and Australian Accounting Standards. The review will increase the Operating Deficit from \$221,007 to \$337,911, an increase of \$116,904. This is mainly due to a decrease in Fees and Charges of \$491K (including a decrease in Casual Tipping Fees of \$644K, offset by an increase in Sale of Scrap Metal of \$120K), savings in Site rehabilitation Expenses of \$250K and savings in Depreciation Expenses of \$118K.

As a result of the above changes, which have been offset mainly by savings in Capital Expenditure of \$53K and transfers from Reserves of \$134K, the budgeted closing funds as at 30 June 2019 will increase from a surplus of \$204,906 to a surplus of \$399,834, an increase of \$194,928.

The following supporting documents are attached for the period ending 31 January 2019:

- Statement of Comprehensive Income (**attached** at Appendix 1)
- Banksia Road Operations (**attached** at Appendix 2)
- Statement of Financial Activity (**attached** at Appendix 3)
- Capital Works Expenditure Summary (**attached** at Appendix 4)
- Balance Sheet Summary (**attached** at Appendix 5)
- Statement of Net Current Assets (**attached** at Appendix 6)

Features of the budget review include:

Current Adopted Budgeted Closing Funds	\$
Variance between actual and budgeted opening funds	\$243,463
Budget Review Changes:	
Operating Income	\$
Fees and Charges	
Casual Tipping Fees Reduction in Casual tipping revenue due to the deferment of sourcing waste from the Perth metropolitan area pending DWER approvals for site rehabilitation and new lined cells at Stanley Road.	(\$644,396)

Sale of Scrap Metal Sales of scrap metal is expected to increase due to an increase in the market price.	\$120,000
Disposal – Shire of Harvey Increase in income from tipping fees due to increased population and building activity.	\$15,093
Shire of Harvey Tip Passes Increase in income due to increased population and building activity.	\$25,240
Recycle Shop income Increase in recycled goods available for sale	\$3,000
Mulch Sales Decrease in mulch sales as customers prefer compost	(\$5,500)
Banksia Road Organics Tipping Fees Increase in FOGO usage by neighbouring Shires	\$30,478
Waste Minimisation Income is expected to decrease in line with the decrease in co-mingled waste tonnages through casual tipping fees.	(\$35,341)
Interest Earnings	
Interest earnings on restricted/(invested) funds is favourable due to the timing of capital expenditure during the year	\$15,112
Other Revenue	
Fuel tax Credits Increase in credits available in line with increased onsite use of plant for rehabilitation and recycling activities.	\$19,426
Insurance Reimbursements. Reimbursements are above budget mainly due to workers compensation reimbursements from the Municipal Workcare Scheme.	\$19,266
Parental Leave Reimbursement This reimbursement from Centerlink is to cover parental leave taken and paid during the year.	\$12,632
Miscellaneous Refunds & Reimbursements Increased income received from the Paintback scheme.	\$2,093
Landfill Levy Income Reduced income due to deferment of sourcing waste from the Perth metropolitan area pending DWER approvals for site rehabilitation and new lined cells at Stanley Road.	(\$366,252)
Operating Expenditure	\$
Employee Costs	
Administration Employee Costs Reduced costs due to office administration staff being on maternity leave which is offset by parental leave paid.	\$66,666
Materials and Contracts	
Accounting/Professional Fees (CoB/Other) Increased costs from fees paid to an employment agency for Office Administration.	(\$76,082)
Technical Services Increased Consulting fees required to answer DWER (Department of Water and Environment Regulation) requests relating to the Lined Cell and Organics Planning applications and the Environmental Audit.	(\$23,780)
Skip Bin Recycling Operations Reduced costs because the tender for the new waste handler was awarded later than expected.	\$11,891
Waste Transfer Station Increased costs due to repairs and maintenance on older plant (Fuso Hookbin Truck & John Deere Skid Steer) and bins (floor repairs).	(\$9,343)
Earthworks Operations Reduced costs due to operational improvements made so that only one item of plant is now required on Earthworks Operations (Landfill Compactor).	\$21,201
Site Rehabilitation Savings have been achieved by reduced contractor cost in landfill gas capture and in utilising in-house operations where ever possible.	\$250,453
Other Materials and Contracts Expenditure Increase in Utility operating costs offset by savings in road maintenance.	(\$6,817)
Depreciation Reduction in depreciation following Plant & Equipment revaluations 2017/18 and timing of upgrade/purchase of new capital items	\$118,645
Insurance	
Vehicle and Plant Increase in insurance premiums paid for site rehabilitation and recycling plant & equipment. This is partly offset by the good driver rebate (\$2,198) included in insurance reimbursements above.	(\$4,487)

Other Expenditure	
Landfill Levy Paid This saving is in line with the decrease in waste being received from the Perth metropolitan area (see notes on Landfill Levy Income and Casual Tipping Fees above). This cost is fully recovered from customers.	\$336,952
Shire of Harvey Tonnage Rebate Increase in rebates given due to the increase in income from tipping fees as detailed above.	(\$11,000)

Summary

Bunbury Harvey Regional Council (BHRC) has an obligation under the *Environmental Protection (Controlled Waste) Regulations 2004* and the *Environmental Protection Act 1986*, Part V Licence conditions to maintain strict control over the acceptance of waste at the Stanley Road Waste Management Facility (SRWMF).

BHRC was issued with an Amendment Notice in December 2018 to allow for the addition of ‘Crushing of Building Material’ (Category 13). This will enable the mobilisation and operation of a mobile inert waste crusher to reprocess Construction and Demolition (C&D) Waste.

This procedure has been developed to provide guidance on measures that can be used to manage the risk of contamination, particularly asbestos in the acceptance of commercial waste and to reduce risks to site workers and the wider community in accordance with the facilities Environmental Protection Licence (EPL).

Officer Recommendation

That Council:

Adopt the Environmental Management Plan – Construction and Demolition Waste Crushing as detailed in attachment 5.

MOVED BY: Cr Wendy Dickinson

SECONDED BY: Cr Betty McCleary

RESULT: CARRIED / ~~LOST~~ – 5/0

RESOLUTION: OC280219-1591

Background

BHRC is committed to environmental sustainability and understands that our actions are important to our staff, customers, visitors as well as our business outcomes and will ensure that its environmental policy, operational procedures and maintenance methods are understood, implemented and maintained by staff, contractors and subcontractors at all levels involved with the operations.

The BHRC has previously adopted an overarching Environmental Management Plan; this EMP is specific Construction and Demolition Waste Crushing.

RESOLUTION: OC280219-1592

Executive Recommendation

Donation of Compost/Mulch to Community Gardens strategically links with Councils "Mission Statement"

To ensure the delivery of an integrated, cost-effective and environmentally sound waste management system and to promote sustainable community programs and policies ensuring that the health, diversity and productivity of the environment is maintained or enhanced for the benefit of future generations.

Reduce the environmental impact of waste and maximise conservation of natural resources through reduced overall material use and increased materials and energy recovery.

The donation will also help to promote the use of compost/mulch in the greater community.

Background

The provision of this product to NFP organisations will enhance our interaction with the community and work hand in glove with education and engagement.

Community Gardens offer the opportunity for residents who have little or no yard to participate and grow their own fresh vegetables. Gardening is a proven enabler in the treatment of mental health.

In the words of Tina Jackson <http://www.foodwise.com.au/the-community-gardening-movement/>:

"Community gardens are being recognised as an innovative way to grow food and improve health. They bring together people from all walks of life, backgrounds and ages to foster a lively and connected community. Whilst gardening is the focus, community gardens are generally community hubs for a range of activities – learning and education, playgroups, arts and creative activities, preparing and sharing food, community events, celebrations and social enterprise.

Turning an unused plot of land into productive social hubs is just one of the benefits of community gardening. Neighbourhood groups with a shared passion for fresh organic produce work together to learn and share knowledge of growing food, help reduce family food budgets and provide opportunities for exercise, recreation and learning, as well as spaces for contemplation and relaxation. Community gardens point the way to living sustainably in an urban environment showing waste minimisation, composting and water usage techniques that can be used by people in their own homes."
