ATTACHMENTS

VISION

To develop, implement and maintain innovative and sustainable waste reduction, recycling and landfilling services while managing waste facilities with best practice standards for the councils of the Wellington Region and beyond.

To provide sustainable waste minimisation, recycling and alternative waste treatment services to an informed community while reducing the environmental impact of waste and maximising the conservation of natural resources through reduced material use and increased resource recovery

MISSION

To ensure the delivery of an integrated, cost-effective and environmentally sound waste management system and to promote sustainable community programs and policies ensuring that the health, diversity and productivity of the environment is maintained or enhanced for the benefit of future generations.

Reduce the environmental impact of waste and maximise conservation of natural resources through reduced overall material use and increased materials and energy recovery.

VALUES

Excellence:

To provide best practice facilities and waste services to our community through the development of quality controls and continuous improvements.

Leadership:

Having a clear vision and direction, that engages with key stakeholders and our community.

Integrity:

Acting with a level of trust, respect, honesty, hard work, communication and shared responsibility that is exhibited by its people.

Accountability:

To ensure the collection and management of solid waste and recovered materials in an environmentally sound manner and in accordance with regulatory requirements and the Department of Water and Environmental Regulation licence conditions.

Innovation:

Embrace new and better ways to achieve improved results through creativity, inventiveness and teamwork.

Respect

We value diversity and respect and are committed to work towards integrating the principles of Equal Employment Opportunity and ensure that the work environment is free from harassment and discrimination. We value and respect all members of our community.

Bunbury-Harvey Regional Council

	Legislative	<input checked="" type="checkbox"/>	Information Purposes	<input type="checkbox"/>
Attachment(s):	N/A			

Summary

To consider and adopt the Budget variation to commence works required to address both Banksia Road and Stanley Road non-compliances for the period 1 July 2021 to 30 June 2022.

Executive Recommendation

That Council:

1. Council adopt the budget variations for the period 1 July 2021 to 30 June 2022 and amend the budget forecast accordingly:

	Variance \$
Operating Income	28,837
Operating Expenditure	(170,000)
Transfer to or from Reserves	141,163

Due to the above adjustments, the closing funds have nil impact to the surplus.

2. Council endorses the provision of zero sales revenue for up to 25,000t partially processed Organic product

MOVED BY: _____

SECONDED BY: _____

RESULT: CARRIED / LOST _____

RESOLUTION: _____

Voting Requirement

Absolute Majority

Background

1. A series of Department of Water Environment Regulation (DWER) Licence conditions are not being complied with at both Banksia Road and Stanley Road sites.

The Stanley Road non-compliances have significantly contributed to the issuing of Environmental Protection Notice in July 2021.

BHRC has recently submitted a program to DWER to address individual non-compliances across both Stanley Road and Banksia Road sites. This rectification program requires significant investment of resources by BHRC to address individual items of non-compliance.

2. Provisioning of Sales income from Compost sales from the March budget review equated to the sale of 1,440t of Compost at \$25 per tonne or \$36,244.

Discussion

1. The budget variation has been prepared to include information required by the Local Government Act 1995, Local Government (Financial Management) Regulations 1996 and Australian Accounting Standards.

Changes to the budget forecast include:

Operating Income	\$
Sale of Scrap Metal increase in volume received	28,837
Operating Expenditure	
Organics Material and Consumable Expenditure. Increase due to addressing site non-compliance minor issues – Hardstand renewal materials and Site Drainage renewal works	(40,000)
Landfill Material and Consumable Expenditure. Increase due to addressing site non-compliance – Transport of 10,000t partial processed organic product at Banksia Rd to be utilised in Rehabilitation (Capping) works as organic layer at Stanley Rd	(80,000)
Landfill Materials & Consumables Expenditure. Increase due to addressing site non-compliances – green waste processing (utilise on Rehabilitation (capping) works for soil stabilisation)	(50,000)
Transfer to or from Reserves	
Stanley Rd Rehabilitation reserve	141,163

As a result of the above changes the budgeted closing funds as at 30 June 2022 will have nil impact on the closing budget surplus.

2. To address the non-compliance of storage of partially processed organic product at Banksia Road in the green waste area (and to address ongoing operational volume intake challenges), BHRC will actively attempt to source potential alternate providers to accept up to 25,000t of the part-processed product.

To encourage potential providers to accept this product for alternative uses, it is recommended that Council endorse the BHRC Chief Executive Officer to offer the product at nil cost.

Any potential provider will be required to remove the product from Banksia Road at their cost by no later than end of August 2022.

The alternative to sourcing a potential provider to remove the product from site at nil cost will be to further process and transport the product to Stanley Road to utilise the product within the rehabilitation (Capping program), which is estimated to cost between \$250,000 and \$300,000.

Consultation

BHRC Financial Manager – Karen McDonald

BHRC Project Director – Kate Shaw

City of Bunbury Chief Executive Officer – Mal Osbourne

Options

1. Council does not endorse the above recommendations – BHRC does not achieve the program to address non-compliances and DWER enforces further action on BHRC to comply to Licence conditions: High Risk
2. Council endorses the above recommendations – BHRC addresses non-compliances and reduces the risk of DWER enforcing further action on BHRC to comply to Licence conditions: Medium Risk **(Preferred)**
3. Council endorses Item 1 and not Item 2 – BHRC addresses non-compliances, however, will be required to “go to market” for the processing and transport of the partial processed organic material and the cost will borne within the Rehabilitation (Capping) works in FY22/23: Medium Risk

Statutory Environment

Local Government (Financial Management) Regulations 1996
Local Government Act 1995

Policy Implications

Procurement Policy

Financial Implications

Specific financial implications are as outlined in this report.
